

The 48V DC Motor – efficiency meets innovation

Technical data 48V DC motors:

Rated voltage 48V DC

Available for the first time from ZIEHL-ABEGG. Offers new possibilities for a wide range of applications

Protection class IP 42

Ensures reliable protection in challenging environments

Control options 0-10 V DC or PWM

For optimal performance and flexibility

Operating temperature -25°C - +60°C

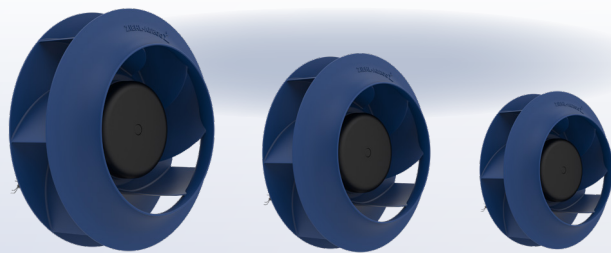

Developed for use in a wide range of conditions

Feedback: Tacho Output

Precise feedback for speed control to monitor and adjust the speed

Certification CE and CCC

Emphasises compliance with safety and quality standards

RH19V
Article No.: 196528
Impeller: ZAvblue 190

RH22V
Article No.: 198684
Impeller: ZAvblue 225

RH25V
Article No.: 196529
Impeller: ZAvblue 250

Important Applications

Datacenter Rack Cooling

Telecommunication

Inverter Cooling

Residential Ventilation Units
